# Increase Item-Width in Item Selection List in Voucher

## Entry

### **Introduction**

In tally when user have a more length of Item Name, tally is showing the item name but very squeezed format. This add-on facilitates the user to increase the Item width in item selection list in voucher entry, so that user can read them properly and use it. This will avoid mistakes in item selection.

### **Important!**

As a best practice it is advisable to back up your company data

### **Installation**

1. Copy the TCP file in Tally.ERP9 Folder.
2. Gateway of Tally → F12 → Product & Features → F4 (Manage Local TDL) → Select Yes in Load TDL on Start up and give the file name of TCP File. After pressing the Enter Key will show TDL Status which should be Active.

### **System requirements:**

No additional hardware / software infrastructure is required for executing and operation this applications module
