## Print Discounted Rate

### **Introduction**

Some times it is necessary to give discount to customer but user does not want to print Discount column in Sales Invoice. This module facilitates the user to calculate discount but allow to hide the discount column and adjust the rate after discount in sales invoice.

### **Important!**

As a best practice it is advisable to back up your company data

### **Installation**

1. Copy the TCP file in Tally.ERP9 Folder.
2. Gateway of Tally → F12→ Product & Features → F4 (Manage Local TDL) → Select Yes in Load TDL on Start up and give the file name of TCP File. After pressing the Enter Key will show TDL Status which should be Active.

### **System requirements:**

No additional hardware / software infrastructure is required for executing and operation this applications module
